# DAILY RECORD-UNION

WEDNESDAY NOVEMBER 16, 1887

## TO-DAY'S LEADING NEWS TOPICS.

But one person has been hanged in Kansas in twenty years.

Land Commissioner Sparks has handed in his resignation.

It is reported that Zach. Montgomery will not be recalled to Washington.

At least accounts Stanley was within 400 miles of Emin Bey's camp.

Emperor William is greatly distressed over the Crown Prince's condition.

De Lesses wants to organize a grand lottery scheme to aid the Panama Canal.

## THE STRANGE POSITION OF THE STATE TREASURER.

The position of State Treasurer Herold upon the question of the erection of the fire-proof warehouse for the State Printing Office is wholly indefensible. It is not only an awkward position, but it is in the direction of corruption, however the Treasurer may look upon it, for it is an attempt to coerce another State official to do something that his judgment disapproves.

It is a brazen offer by one officer to trade his vote with another State official in a matter in which each, to be honest and self-respecting, must act independently.

This is the case: The Legislature provided for the erection of a fire-proof building, to cost not in excess of \$10,000, for the storage of the plates, stock, and finished work of the State school books. This was wise action, and so conceded by every one, for if the books, plates and electrotypes were to suffer destruction by fire, they could not be duplicated for a year or two, and only then at immense cost, and in the meantime the book rings would have the State at their mercy. In fact, the interest of the ejected text-book syndicate would be favored by a fire in the printing office, and advanced by the action of the Treasurer.

The scheme of State text-books should not be exposed to such risks, or put at the mercy of such stubbornness. The general law requires that all plans and specifications for improvement in, or addition to any State institution, must be approved by three persons, and Mr. Herold is unfortunately, by virtue of his office, one.

The plan having been drawn and specifications settled, the Superintendent of State Printing submitted them for approval, and Mr. Herold refuses to give it.

If the refusal were based upon objections to the plans and specifications, or upon alleged non-compliance with the law on the part of the Superintendent, it would have some backing, and the Treasurer might be able to justify it by pointing out the changes necessary, and requiring them to be made. But Mr. Herold raises no such objections.

The plan does not find to be at fault, and he suggests no changes in them. On the contrary, his sole and only ground for non-approval, is he careful to state, is that the Governor has taken exception to the mile-mile extension plans at San Quentin.

"When," says the Treasurer, "the Governor approves them, I will approve the warehousing plans."

So, then, the Treasurer of the State, with amazing effrontery, proposes to defer the will of the Legislature and put at great hazard the school book system of the State, because the Governor refuses to do the will of the people.

The warehouse proposition must stand upon its own legs, and has no relation whatever to any other issue. It was not given to Mr. Herold to say that it should not be carried out. That is a matter beyond his province. He is by his duty bound only to see that the plans and specifications conform to the law, and that the State is not defrauded by their adoption.

Judging from the remarks of Rev. Horatio Stebbins before the Executive Committee of the Pacific Coast Conference of Charities, the outlook for closer operation of charity associations in the future is very bright. He expressed the hope that scattering talk and mere theorizing was over, and that at the next annual convocation there would be accomplished some practical work. The best methods of reform in charitable exercise would be the one theme, and that would be considered from a practical and business-like standpoint. In other words, the reverend gentleman gave his hearers to understand that if good work is to be accomplished in preventing the misuse of charities and waste of energy the millionaire and niggard talkers would have to be curbed, and the idea was received in such a cordial manner that may be taken for granted this will be done. It is to be hoped that this new policy will lead to a careful consideration of the proposition to establish a central agency of detection and advice. To this all charitable organizations would report their work and distribute this information back to and among all the societies. It would also, in all cases of doubt regarding relief applied for, be able to report to the society applying the exact status of the case in hand, for the agency, by a district system of inspection, would keep itself informed of all cases of real distress. Under such a system "expedition" and shifting of professional beggars from one jurisdiction to another, in order to avoid detection, would be nearly impossible. People would cease to give in indiscriminate charity, but refer applicants to the agency, which, in turn, if the case was worthy, would report to the proper society to take charge of that particular case. The plan has many other advantages, but the chief are the unity of effort it would conserve and the imposition it would prevent. There is no reason why the almoners of public charity should not know each what the other is doing, that there should be no waste of energy or of charity funds. There is every reason why they should have a mutual protection system similar to that existing among business houses, by which they prevent the unworthy from obtaining credit.

If the State Treasurer can make this action square with a conscientious discharge of his duty under his oath to uphold the laws and conserve their execution, he will accomplish that which any other man in a like position would be unable to do and retain his self-respect. If he can face his fellow-citizens with the proposition that the affairs of the State are to be administered, so far as he is concerned, by exchange of favors and trade of prerogatives, he is possessed of more hardihood than is met with in other men.

Boss Tweed and boulder Sharp went but a step beyond. Indeed, the line of distinction between trading official votes and buying and selling them is very narrow, and all but invisible. Mr. Herold will have to face the task of answering to the next Legislature, and to the people, why a heavy bill of cost is run up to secure safe storage for State property when the State provided means to make the Superintendent of Printing warehousemen for the State.

It is openly stated that Mr. Herold in this matter is acting under advice of the Democratic State Central Committee. The purpose of that body is, then, to cripple the Administration by defeating its economic plans. To accomplish that it proposes to put in jeopardy valuable State property through the agency of Mr. Herold. It is amazing that even the political machine can descend to such low schemes. If it is true, as stated, the Democratic Committee merits and must meet the rebuke of the people equally with the Treasurer, and share his ignominy in attempting to defeat the plain and undeniable will of the State, expressed by the Legislature.

## THE PRESIDENT INGRESS'S BODDLE POLITICS.

President Cleveland wrote a letter to an official in New York during the recent campaign, in which he said: "I know nothing which, if I were a voter in the city of New York, would prevent my support of Mr. Fellows candidacy [for District Attorney] without the least misgivings as to his fitness, and with considerable personal satisfaction." Just after the letter was published, five similes of autograph notes were published that had passed between Boss Tweed and Fellows, while the former was under indictment, in which the latter begged the former for a loan of \$500 to enable him to discharge a debt. This debt was understood to have been

incurred at the gaming table. Just before the loan, Fellows had been Assistant District Attorney. Fellows being interviewed, admitted that he had received aid from the chief of all bootlers, but denied that he ever had any other money transactions with Tweed. Whereupon the newspapers unearthed still another letter, and printed it in fac simile, showing that other sums of money had passed from Tweed to Fellows. Yet, President Cleveland, with this evidence presented to him, would not withdraw his endorsement. The bootle element, the President and the Democracy therefore managed to elect Fellows, and Jake Sharp in his dungeon cell unquestionably rejoiced.

Fellows was an ex-Confederate General who, though born and raised on free soil, went South and took arms against the flag of the nation. He is noted as an impudent man, a devotee of the green cloth-covered table and the friend of the bootlers, yet the President of the United States descended from his high station to write a letter to be used in the campaign to elect this man to the great trust of the District Attorneyship of the chief city of the continent. Verily, Mr. Cleveland is a reformer. He has cast his influence for a man who dragged the Democratic vote in New York city many thousands below the plurality cast for Secretary of State, and who attained his shallow victory by practices the leading journals of New York do not hesitate to pronounce as corrupt.

Then the New York *Times*, which has supported Mr. Cleveland long, has

been a vast mass of ignorant and carping classes, and leadership in the pay of the bootlers, has come to the rescue of Mr. Fellows. An enormous amount of money was expended by the city to secure the result of yesterday. Mr. Fellows' victory is a victory for the bootlers.

In some districts the leaders and workers of the bootlers were compelled to betray the interests of their master. Others, with more or less success, to subserve those of the bootlers. In other districts, and there were bargains for the bootlers, long and strict candidates at the cost of those on the general ticket, and the bootlers, the ignorant and the vicious, were arrayed against the thoughtful Democratic partisans to defeat independent citizens to put the best men in office.

Certainly Mr. Cleveland is a reformer, reformers, of course, countenance candidates who win by such means.

There was rejoicing in the American colony in Canada when Colonel Fellows' election was announced there. Yet Mr. Cleveland, the reformer, supported the ex-Confederate candidate. There will be no more convictions of "bootlers" exclaims the New York *Tribune*. The *Post*, which did its level best for Mr. Cleveland, weeping said to him:

"We take leave to inform the President that his knowing of nothing that would prevent his supporting Mr. Fellows' candidacy is a striking proof of the influence of the bootlers in local contests of this nature. \* \* \* To send out a written endorsement of a candidate who has been so much won over to the bootlers is a most unwise and ungenerous act for Mr. Cleveland's person and office, to presume that he knows nothing or next to nothing of the bootlers. He is the most interested and intelligent voter of both parties in the city is trying to compass is something very important."

But Mr. Cleveland, though the Democratic World held up its hands in protest against his endorsement, did not withdraw it. Certainly Mr. Cleveland is a reformer, and will not touch anything evil or corrupt with any but pure agencies to compass a second term, and of such are those that bought and bargained Colonel Fellows into office in New York City.

## CHARITY UNIONISM.

Judging from the remarks of Rev. Horatio Stebbins before the Executive Committee of the Pacific Coast Conference of Charities, the outlook for closer operation of charity associations in the future is very bright. He expressed the hope that scattering talk and mere theorizing was over, and that at the next annual convocation there would be accomplished some practical work. The best methods of reform in charitable exercise would be the one theme, and that would be considered from a practical and business-like standpoint. In other words, the reverend gentleman gave his hearers to understand that if good work is to be accomplished in preventing the misuse of charities and waste of energy the millionaire and niggard talkers would have to be curbed, and the idea was received in such a cordial manner that may be taken for granted this will be done. It is to be hoped that this new policy will lead to a careful consideration of the proposition to establish a central agency of detection and advice. To this all charitable organizations would report their work and distribute this information back to and among all the societies. It would also, in all cases of doubt regarding relief applied for, be able to report to the society applying the exact status of the case in hand, for the agency, by a district system of inspection, would keep itself informed of all cases of real distress. Under such a system "expedition" and shifting of professional beggars from one jurisdiction to another, in order to avoid detection, would be nearly impossible. People would cease to give in indiscriminate charity, but refer applicants to the agency, which, in turn, if the case was worthy, would report to the proper society to take charge of that particular case. The plan has many other advantages, but the chief are the unity of effort it would conserve and the imposition it would prevent. There is no reason why the almoners of public charity should not know each what the other is doing, that there should be no waste of energy or of charity funds. There is every reason why they should have a mutual protection system similar to that existing among business houses, by which they prevent the unworthy from obtaining credit.

If the State Treasurer can make this action square with a conscientious discharge of his duty under his oath to uphold the laws and conserve their execution, he will accomplish that which any other man in a like position would be unable to do and retain his self-respect. If he can face his fellow-citizens with the proposition that the affairs of the State are to be administered, so far as he is concerned, by exchange of favors and trade of prerogatives, he is possessed of more hardihood than is met with in other men.

Boss Tweed and boulder Sharp went but a step beyond. Indeed, the line of distinction between trading official votes and buying and selling them is very narrow, and all but invisible. Mr. Herold will have to face the task of answering to the next Legislature, and to the people, why a heavy bill of cost is run up to secure safe storage for State property when the State provided means to make the Superintendent of Printing warehousemen for the State.

## THE PRESIDENT INGRESS'S BODDLE POLITICS.

President Cleveland wrote a letter to an official in New York during the recent campaign, in which he said: "I know nothing which, if I were a voter in the city of New York, would prevent my support of Mr. Fellows candidacy [for District Attorney] without the least misgivings as to his fitness, and with considerable personal satisfaction." Just after the letter was published, five similes of autograph notes were published that had passed between Boss Tweed and Fellows, while the former was under indictment, in which the latter begged the former for a loan of \$500 to enable him to discharge a debt. This debt was understood to have been

improved sanitary condition, in preparation for a possible outbreak of cholera in a few months. He is careful to say that he does not wish to alarm the people, and believes the cholera can be kept out; yet the health authorities deem the conditions such that preparation for the possible is demanded by good judgment. Practically, this is a confession that not sufficient care was taken in quarantining the Alesia and Independent, and that the carelessness of the officials at Hoffman Island has exposed the country to the menace of a terrible scourge. The committee of physicians who examined the Alesia and Independent Cleveland, with this evidence presented to him, would not withdraw his endorsement. The bootle element, the President and the Democracy therefore managed to elect Fellows, and Jake Sharp in his dungeon cell unquestionably rejoiced.

Fellows was an ex-Confederate General who, though born and raised on free soil, went South and took arms against the flag of the nation. He is noted as an impudent man, a devotee of the green cloth-covered table and the friend of the bootlers, yet the President of the United States descended from his high station to write a letter to be used in the campaign to elect this man to the great trust of the District Attorneyship of the chief city of the continent. Verily, Mr. Cleveland is a reformer. There will be no more convictions of "bootlers" exclaims the New York *Tribune*. The *Post*, which did its level best for Mr. Cleveland, weeping said to him:

"We take leave to inform the President that his knowing of nothing that would prevent his supporting Mr. Fellows' candidacy is a striking proof of the influence of the bootlers in local contests of this nature. \* \* \* To send out a written endorsement of a candidate who has been so much won over to the bootlers is a most unwise and ungenerous act for Mr. Cleveland's person and office, to presume that he knows nothing or next to nothing of the bootlers. He is the most interested and intelligent voter of both parties in the city is trying to compass is something very important."

But Mr. Cleveland, though the Democratic World held up its hands in protest against his endorsement, did not withdraw it. Certainly Mr. Cleveland is a reformer, and will not touch anything evil or corrupt with any but pure agencies to compass a second term, and of such are those that bought and bargained Colonel Fellows into office in New York City.

Certainly Mr. Cleveland is a reformer, reformers, of course, countenance candidates who win by such means.

There was rejoicing in the American colony in Canada when Colonel Fellows' election was announced there. Yet Mr. Cleveland, the reformer, supported the ex-Confederate candidate. There will be no more convictions of "bootlers" exclaims the New York *Tribune*. The *Post*, which did its level best for Mr. Cleveland, weeping said to him:

## LOCAL INTELLIGENCE.

## A NEW MOSQUITO TRAP.

Something Every Bald-headed Man Should Keep in the House.

For many years a small quantity of strychnine has been placed in the paste which is used in the RECORD-UNION office, in order to kill the rats that daily fed at the paste bucket. Before this was done a large colony of rats took up their abode in the neighborhood, and grew fat and sleek on the paste. Since it has been loaded, however, not a few of the rat colony have passed over the river of Jordan. The rats, old and young, when they approach a can of paste, sit on their hind legs, and look at the cans with suspicion and glance, and pass by on tip-toe. The rodents seem to have kept their secret very well. A few evenings since a small cup of this paste was on a table in the Record-Union office, and the traps were holding. The mosquitoes were holding an annual carnival in the vicinity. One of the band became separated from the others, and in attempting to find his way back came on the paste. Being mosquito-cold he entered the region of the stomach, he refreshed himself from the paste can, with the most disastrous results to himself. He, with other of his kind, now repose on the paste, and warning to others not to go who are inclined to mosquito with "loaded" paste. Since the last examination in the vicinity of the paste several intrepid mosquitoes have been found, with all their blood-sucking propensities, as well as their vitality, gone.

## An Insult Resented.

At midnight Monday Second, and K streets was the scene of a lively fight. After completing their duties at the police station Chief Dillman and City Attorney Hart proceeded homeward and had not gone far when they were met by a friend, who stated to Dillman that he had received some young hoodlums shouting epithets about the Chief. The conversation here ceased, and both parties pursued their way. When the two came of San and K the Chief happened to come across the parties alluded to, and he approached one of them, saying "I heard you called me a *punk* receiving an affirmative answer, a heavy blow from Dillman's fist knocked the *punk* in the gut. Immediately two of the injured gang's companions rushed at the Chief, who defended himself the best way he could until officer Lewis arrived on the scene. A change of affairs soon took place, and the three who were to town—*towns* were put to flight. No pistols were used, and the matter was settled with the consent of both parties. No injuries were received beyond a few slight scratches.

## Mamie Kelly's Slayer.

Yesterday Eugene N. Duprey, counsel for Goldsden, the woman who murdered Mamie Kelly, a school girl in San Francisco, appeared before the Supreme Court and made a motion for diminution of record. He argued that Goldsden's counsel spared a statement and bill of exception to the trial, and regularly to the Court below. The defense counsel filed no counter complaint, yet Judge Murphy had stricken out a portion and sent the statement up to the Supreme Court very much altered. He then moved the Supreme Court to order commanding Judge Murphy to amend his statement so that it would conform to that originally filed. The Attorney-General, on behalf of the prosecution, said that he would be taken under advisement, until to-day, and if granted the hearing of the case, which was set for to-morrow, will be continued.

Police Court.—In the Police Court yesterday Mrs. Georgia Frissell, booked for drunkenness, was discharged. A pass was however procured for her and she was "passed" to the police station. Paul Gardi, charged with assault with a deadly weapon, was discharged, the evidence not warranting his conviction. Wm. Land and Dr. Dowd, charged with violating Ordinance No. 52, were discharged. Al Jun was sentenced to thirty days imprisonment in the county jail for refusing to give his true name to the Assessor. The Court thought such matters were happening altogethers in the police station, and the three *towns* vagrants, were sentenced to thirty days in the county jail. The commitment was withheld, however, to be taken time to "skip" James Lewis will be given time to stand on a charge of battery.

ANOTHER FEEDER.—It is generally remarked that Sacramento is enjoying at the present time a condition of increasing prosperity and commercial activity that has not been known for long years. And the increased demand for labor to meet indicates the increase of residents and the permanent growth of the city. There has not been for years such a demand for mechanics as there is now, and the demand for house builders, and it is a well-formed belief that the present demand for builders is only the commencement of a continuous permanent industrial activity and general prosperity. The art of keeping pace with present demand for labor, building and materials, a lumber-yard is about to be opened by F. D. Meyers and will be located on the Highland Park tract.

CUTTING SCRAP.—Yesterday afternoon two men—Japanese George and Richard Lawrence—were arrested for drunkenness, but were released when they had sobered up, on their putting up a deposit of \$5 each. George became annoyed at the representations of the Indian Superintendent of the Protestant Orphan Asylum met Mr. Gray at the Golden Eagle last evening and entered heartily into co-operation with the printing plant. It was the sense of the persons engaged that the Indians would be in the city to participate in the Carnival, giving each one of them a remunerative booth in the Pavilion, while the charities would receive the proceeds of the tickets sold. Mr. Gray will go to San Francisco this afternoon, but will return in a day or two, again when it is expected that a general meeting will be held to consider the Carnival subject.

Mr. Gray will go to San Francisco this afternoon, but will return in a day or two, again when it is expected that a general meeting will be held to consider the Carnival subject.

ANOTHER BOY MISSING.—A few days ago a small boy by the name of Johnnie Pendegast disappeared from home, and has not yet been heard from. His parents have not given up the search, and are still in their power in the hope of finding him. He is 12 years of age, and was last seen crossing the Yolo bridge. He has been peddling newspapers lately, and the supposition is that he has run away to earn his living. The name of Marks, who has been reported missing, the parents of the boy are nearly prostrated with grief, the mother of the Pendegast boy especially.

THE STATE LIBRARY.—Governor Waterman has not yet appointed Trustee for the State Library to fill the vacancy caused by the death of Henry Edgeron. He says he intends to recruit a business man—one who has a good knowledge of the library, and the administration, before applying for the position. On the Board he proposes to have a complete experting of the books for several years back, and ascertain whether or not the administration has been what it should be.

HIGHLAND PARK TRACT.—A number of the best described lots have been offered for sale in Sacramento to be sold at auction Saturday evening, November 19th, at 7 o'clock, at Armory Hall. See advertisement.

Free conveyance to Highland Park, to examine the property, from 1023 Fourth street.

Pint bottle bay rum, 25 cents; German cologne, eight-ounce bottles, 60 cents. Red House.

EMBRACE this opportunity of securing a home at Highland Park, at Armory Hall, Saturday evening, November 19th.

JAMES H. WILKINS.  
He Asks that His Official Acts be Investigated.

Public officials seldom resign, and when they do usually there is very little said about it. This, however, was not the case with the resignation of James H. Wilkins, as a member of the State Board of Prison Directors, for since he sent in his resignation there has been much speculation as to the motive that induced him to do so. Since Governor Waterman announced some weeks ago that he proposed to make the prison officials act as a *trustees* and ascertain just how the business was transacted, there has been many rumors afloat, and more than one resignation was anticipated.

The following correspondence is self-explanatory:

GRAND HOTEL,  
SAN FRANCISCO, November 14, 1887.

To Hon. JAMES H. WILKINS, Governor of the State of California.

Post of State Prison Director.

Dear Sir:—I have the honor to inform you that your resignation as State Prison Director, with your act of November 14, 1887, has been accepted.
